EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The claim for priority at page 1, lines 3-10, has been amended as follows:

This application is a continuation of Application No. 09/807,980, ~~filed October 29, 1999~~ now U.S. Patent No. 6,811,996, which is a National Stage Application of International Application No. PCT/JP99/06016, filed October 29, 1999, which was not published in English under PCT Article 21(2), and which claim priority of Japanese Application Nos. 10-310130, filed October 30, 1998, and 10-329272, filed November 19, 1998. The entire disclosure of Application No. 09/807,980 is considered as being part of the disclosure of this application, and the entire disclosure of Application No. 09/807,980 is expressly incorporated by reference herein in its entirety.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Arnold Turk on October 6, 2005.

The following is an examiner's statement of reasons for allowance: The claimed invention is deemed allowable over the prior art of record or any combination thereof. The declaration by Shiose under 37 CFR 1.132 filed February 23, 2005 is sufficient to establish unexpected results for the claimed invention in comparison to the WO Patent Application 97/46260. Accordingly, the obviousness rejection set forth in section 4 of the Office action

Art Unit: 1654

mailed October 31, 2003 in parent application 09/807,980, based upon the WO Patent

Application '260 as the primary reference, is withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

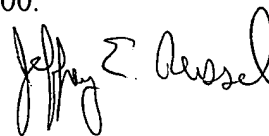

The drawings filed April 13, 2004 are acceptable to the examiner.

The Sequence Listing filed April 13, 2004 is approved.

U.S. Patent No. 6,811,996, which issued based upon parent application 09/807,980, is cited as art of interest, but does not raise any issues of obviousness-type double patenting with the instant claims.
